THE PARENTAL CONTRIBUTION TABLES -- ONTARIO STUDENT ASSISTANCE PROGRAM --  
CANADA STUDENT LOAN OPTION

The Parental Contribution Tables are for the parents of people applying for financial aid from the Ontario Student Assistance Program (OSAP) or under the CSL option. It enables you to calculate the amount you are expected to contribute to the applicant's Financial Resources. As the assessment criteria for OSAP differ from those of CSL, two separate Parental Contribution Tables are included.

A full description of OSAP is provided in the brochure entitled ONTARIO STUDENT ASSISTANCE PROGRAM 1975-76. It explains how assistance from OSAP is calculated and will enable you to understand the example of a calculation on page 3. Questions No. 2,7,9 and 11 in the brochure will be of particular interest. The CSL option is described in a separate pamphlet included with the brochure. If you want a copy of the OSAP brochure or the pamphlet explaining the CSL option or if you have any queries regarding financial aid for students, contact the Student Awards Officer at any university or community college in Ontario, or write to or telephone:

Toronto, Ontario M7A 2B4

Telephone: (416) 965-5241

If you are self-employed, you will not be able to calculate your expected contribution. Instead, it will be calculated when you submit a completed application for financial assistance together with a "Statement of Income for Self-Employed Persons", a copy of which is provided with OSAP application forms. OSAP defines a self-employed person as one whose major source of income is derived from ownership or operation of a business, either alone or with others, whether or not the business is incorporated. This definition is intended to include farms.

Take the three steps outlined below to calculate the amount you are expected to contribute to the applicant's Financial Resources.

1. Calculate Your Net Income

Calculate your net income by making the following deductions from your gross family income. If both you and your spouse work, the deductions should be applied to your combined gross incomes.

The deductions are as follows:

- Income taxes payable.
- A standard allowance of 6% of earned income, or incomes, for pension plan contributions (earned income is income from earnings only and does not include income from sources such as pensions, investments, unemployment insurance benefits, etc.).
- A standard allowance of \$265 for medical and hospital insurance premiums.
- A standard allowance of \$200 for uninsurable medical and dental expenses.
- The actual amount of uninsurable medical and dental expenses in excess of \$200, if receipts are available.
- The actual amount of support for an elderly or infirm dependent relative who is wholly dependent on the family. Normally the relative will be living with the family or in an institution such as a nursing home. The maximum allowance is \$880 (\$1,000 under CSL). However, if actual costs exceed these maximums, and you support more than one dependent, an additional deduction may be allowed.
- Deductions for each child, as follows:

Child's Age	OSAP	CSL
	Deduction	Deduction
0 to 11	\$ 565	\$ 660
12 to 15	\$1,025	\$1,200
16 or more	\$1,115	\$1,300

Children over 15 who are not attending an educational institution are only considered as dependents if they have a physical or mental handicap. In addition, if both you and your spouse work, you are allowed other deductions as follows:

- 10% of the lower income to a maximum of \$700 (\$800 under CSL) as an allowance for the working spouse.

- 25% of the lower income to a maximum of \$1,175 (\$1,350 under CSL) as an allowance for babysitting, if there are children in the family under 12 years of age.
- 2. Calculate Your Weekly Contribution and Additional Contribution
  - If your net income is less than \$5,100 (\$6,200 under CSL), you are not expected to make any contribution. If it is more than \$5,100 (\$6,200 under CSL), turn to the attached Parental Contribution Tables.

Using the appropriate table, find your net income at the left hand side of the page, then look along the line to the column showing the number of children you have at post-secondary institutions. The table shows two figures:

- A weekly contribution.
- An additional contribution.

3. Calculate Your Total Contribution

To calculate your total contribution, multiply the weekly contribution by the number of weeks in the course for which the applicant is applying for assistance. Then add this amount to the amount shown as an additional contribution. The sum of these two amounts is the total contribution you are expected to make.

Example

The husband and wife have gross incomes of \$12,000 and \$4,000. They pay \$60 per month to support an elderly relative who lives in a nursing home. They have three children, one aged 8, one aged 13 and the applicant. She is applying for assistance to take a 34-week, first year university program. She was available for work for 8 weeks during the summer and will work part-time during the academic year to earn \$700. She intends to live at home, which is 13 miles from the campus.

Calculating the Parental Contribution

The information in this document and the attached Parental Contribution Tables explain the calculation below:

Calculation of Net Income

OSAP

1974 Gross Income:  
(\$12,000 + \$4,000)

CSL

\$16,000  
\$16,000

2,736

Pension plan contributions  
(6% of earned incomes)

960

Medical and hospital insurance

    premiums (standard allowance)

265

Uninsurable medical/dental expenses  
(standard allowance)

200

Support for dependent relative  
( $\$60 \times 12$  months)

720

Support for children  
( $\$565 + \$1,025 + \$1,115$ )

2,705

    ( $\$660 + \$1,200 + \$1,300$ )

Allowance for working spouse  
(10% of \$4,000)

400

Allowance for babysitting  
(25% of \$4,000)

1,000

\$ 8,986

Total Deductions

    Gross income minus deductions

\$ 7,014

Net Income:

    Gross income minus deductions

\$ 6,559

Calculation of Weekly Contribution and Additional Contribution

With a net income of \$7,014 (\$6,559 under CSL) and only one person, the applicant, as a post-secondary student, the Parental Contribution Tables show a weekly contribution and an additional contribution as follows:

	<u>OSAP</u>	<u>CSL</u>
- Weekly contribution	\$ 21.45	\$ 5.75
- Additional contribution	\$127.00	0

Calculation of Total Contribution

The applicant plans to take a 34-week course. Thus the total contribution is calculated as follows:

	<u>OSAP</u>	<u>CSL</u>
- Total weekly contribution (\$21.45 x 34)	\$729	(\$5.75 x 34)
- Additional contribution	127	0
Total Parental Contribution	\$856	\$195

## Calculating Total Assistance

To understand the following calculation, refer to the brochure entitled ONTARIO STUDENT ASSISTANCE PROGRAM 1975-76, and to the pamphlet entitled CSL OPTION.

### Educational Costs

	<u>OSAP</u>	<u>CSL</u>
Tuition and compulsory fees	\$ 748	\$ 748
Books and equipment	125	125
Board and lodging (34 X \$21.45)	729	(34 X \$25.00) 850
Miscellaneous expenses (34 X \$11.50)	391	(34 X \$13.50) 459
Local transportation (34 X \$6.00)	204	204
Total Educational Costs	<u>\$2,197</u>	<u>\$2,386</u>

### Financial Resources

Contribution from summer or work term earnings (8 weeks at \$37)	\$ 296	\$ 296
Contribution from part-time earnings of \$700 (50% of earnings over \$600)	50	50
Parental contribution (see Calculating the Parental Contribution)	<u>856</u>	<u>195</u>
Total	<u>\$1,202</u>	<u>\$ 541</u>

### Financial Need

Educational Costs less Financial Resources (\$2,197 - \$1,202)	\$ 995	(\$2,386 - \$541) \$1,845
--	--------	---------------------------

### OSAP/CSL Assistance

	<u>OSAP</u>	<u>CSL</u>
Loan (under OSAP, \$800 plus \$25 per week for each week of the course exceeding 32 weeks)	\$ 850	\$1,800
Grant	140	0
Total Assistance	<u>\$ 990</u>	<u>\$1,800</u>
